FOR IMMEDIATE RELEASE

Aqua Diagnostic Appoints Distributor for Australia and New Zealand

Melbourne – 27 March: Aqua Diagnostic Pty. Ltd. today announced the appointment of John Morris Scientific to distribute Aqua Diagnostic's range of PeCOD™ COD Analysers in the Australian and New Zealand markets.

According to Greg Roberts, General Manager of Asia Pacific for Aqua Diagnostic, "We are very pleased to have the John Morris Group joining Aqua Diagnostic's global distribution network. John Morris have an excellent reputation of service and support and for introducing world leading products over their 50 years as a distributor in the Australian Market. Their expertise and experienced staff will provide our customers with the best possible support as they reap the benefits of our new products."

According to Arthur Brien, Environmental Division Manager of John Morris, "We are excited to distribute the revolutionary PeCOD™ Analysers. These new products represent a major innovation in COD analysis and promise to deliver significant benefits and savings to our customers through the unique features they possess. We look forward to working closely with Aqua Diagnostic, and enlightening the scientific community to this revolutionary technology."

About John Morris Scientific

John Morris Scientific was founded in April 1956. Since its inception, three generations of the Wyzenbeek family have worked in John Morris Scientific.

Today, John Morris Scientific employ over 70 personnel in offices located across Australia and New Zealand and the Islands of the South West Pacific. John Morris are reputed as the most reliable and stable scientific instrument supplier in their region and are committed to supplying the best products and delivering the best service.

About Aqua Diagnostic

Aqua Diagnostic is the first company in the world to commercially deploy a nanotechnology based photo-electrochemical technology (PeCOD™) for the analysis of chemical oxygen demand (COD). The company was established in 2005 and now markets a range of products utilising the PeCOD™ technology to enable COD analysis in the field, laboratory and on-line.

Aqua Diagnostic is based in Melbourne, Australia, and has built a growing network of Distribution partners in the major global markets.

Aqua Diagnostic recently received an award in the category of Science Innovation at the inaugural 2008 Fast Thinking/Open Universities Innovation Awards. The PeCOD™ L100 COD Analyser also received an award at the IBO 2008 Industrial Design Awards (Los Angeles, CA – Instrument Business Outlook (IBO))
